

DEPARTMENT OF INDUSTRIAL SOCIOLOGY

Name of the Programme : Under graduate Level (B.A)

Subject- Industrial Sociology (Hons)

Programme Specific Outcomes:

Industrial sociology courses teach students to examine the relationships between coworkers, management and employees and analyze how those relationships affect the work environment. the curriculum thus intends to reduce the gap between industry and academia, with the right blend of theory and practice, furthering students to nurture their talent for becoming good leaders and assets for an organization. Students shall gain an in-depth knowledge and analytical skills which will enable them to effectively and efficiently carry out various human resource and organizational development operations of an organization in the emerging globalized environment.

Human resources is a crucial field of interest in industrial sociology . A human resource specialist is an expert who can handle different responsibilities, from generalizing roles like recruiting, employee relations to higher management roles like policymaking, benefits, and payroll for employees. Policy Analyst is another central role that you can pursue amidst the diverse careers in Industrial Sociology. For this position, a Master's degree or PhD in Industrial Sociology is the primary eligibility criteria. Industrial sociologist may work as consultants for business organizations. Where they offer knowledge on how business leader can enhance good work relations among their employees.

Industrial sociology is an applied discipline. It concerned with the study of human relations as they grow and operate in the field of industries. It concentrate upon the social organizations of the work place or industry.
